```
Feature: Login
      This feature seek to verify the Login on MP

 @e2e @mpSanity @mpRegression
 Scenario: Precondition
   Given I visit the "MP" login page
   # And I get element by selector ".loader"
   # And I see element is not visible
   When I login to the "MP" application
   # Then I visit "v1/applications"
```
